# Blockchain Autumn School 2021

# Call for Paper

The Blockchain Competence Center (BCCM) of Mittweida University of Applied Sciences (HSMW) is organizing the 5th Blockchain Autumn School (BAS2021) from September 13 to 17, 2021.

The Blockchain Autumn School 2021 is an online event for education, training and networking in the field of Blockchain. In addition to technical lectures and a series of internships, industry-specific practical lectures and a Blockchain Scientific Track will be offered.

The Scientific Track (September 16, 2021) will focus on presentations of R&D results and networking of university and non-university research institutions with potential partners from industry.

We give professors, research assistants, PhD students and excellent students the opportunity to present their results in the context of blockchain technology to a broad audience of interested experts. The call is open to all topics, results from research papers, projects, bachelor, master, diploma theses and PhD theses on the topic of blockchain are welcome.

## Procedure

- Submission of abstracts by July 15, 2021 (max. 350 words, in German or English) at bccm@hs-mittweida.de.
- In the peer-review process, the best papers will be selected and invited to submit a full paper. These will be published in the conference proceedings (with ISBN).
- From all submissions some are expected to be selected to give a presentation at the Scientific Track on September 16, 2021. Alternatively, there is the possibility to present a poster (online).

## Best Paper Award

As part of the Scientific Track of BAS2021, Volksbank Mittweida will sponsor a Best Paper Award with a prize.
